

October 4, 2017

To Whom It May Concern;

Since December of 2016 I have worked with Connor Clough and his company Extreme Threads.

We needed a referee jersey that would be a standard across all football officials in the province of British Columbia. I worked closely with Connor to get the jersey correct and thus adjusted and tweaked the uniform until the jersey was finally approved by our BCFOA executive. We had over 160 jerseys to create and deliver to all parts of the province.

Connor is very forgiving. For example many jerseys did not include a logo or number on the product. He insisted to get things right and corrected all the orders. This indicates that he and the company stand behind their products. Connor satisfies his customers and in return will receive additional orders from our association the BCFOA.

Thank you Connor for your work and I will recommend your company to other groups or sports organizations in the future. Well done.

Sincerely,

Robert D. Kozak – Secretary BCFOA
