## **X-treme Threads is awesome to work with!**

It is as simple as that.

Connor Clough worked with us from design through shipping; meeting our tight timeline and every commitment along the way. We had a couple of post-purchase issues that were dealt with immediately and beyond our expectation. The team and our fans are ecstatic with the look and quality of the product and X-treme was more than competitive on price.

As long as I am involved with the Rebels, we will not be dealing with any other jersey company.
